**Our stores serve a dual purpose:**

First, they are employment and training sites for people with disabilities, criminal backgrounds or other challenges. For many of our employees, Goodwill is a stepping stone. It's a chance for them to gain work experience, build their skills and move on to an even better opportunity—either within Goodwill or with one of our hundreds of partnering employers.

Second, our stores generate revenue to help fund employment programs and career services for Kentucky job seekers who face barriers to finding and maintaining meaningful employment.

Most items will be priced as indicated on this list; however, store personnel are authorized to price special items at higher prices. Prices on this list may change without prior notice.
